5. Title of this initiative: Ensuring Common Commercial Policy conformity with EU Treaties and compliance with international law

6. Objectives of the initiative: We seek to regulate commercial transactions with Occupant's entities based or operating in occupied territories by withholding products originating from there from entering the EU market. The Commission, as Guardian of the Treaties, has to ensure consistency of Union's policy and compliance with fundamental rights and international law in all areas of EU law, including CCP. It must propose legal acts based on the Common Commercial Policy to prevent EU legal entities from both importing products originating in illegal settlements in occupied territories and exporting to such territories, in order to preserve the integrity of the internal market and to not aid or assist the maintenance of such unlawful situations. The initiative thus invites the Commission to submit a proposal for a legal act under the Common Commercial Policy which is general in nature and does not target a specific country or territory.
